Our Standard Features Details

Admin Mode

As an administrator you can password protect your space, change your background images, insert videos, share your presentation, and enable broadcasting mode so every guest can see and hear you!

Call / Text Widget

Give your future customers a quick and easy way to get on the phone with you. We simply place an eye-catching call button on your website to connect immediately.

Onboarding App

Gives your customers an opportunity to enter your rooms by either desktop or cell phone - we send them a text message to enter your room. We can tailor additional texts with any message you would like to deliver. Your guests just click the link and they are connected to your opening room.

Smart Calendar

ShareMe.chat provides you with a meeting URL. Anytime you set up a meeting you can easily save and copy the URL meeting into your calendar invite. Enter date / time / password in the admin panel on the ShareMe.chat platform and email your invited guests.

Report of Monthly Hits

ShareMe.chat can tell you the number of users in your Open House or virtual space. It also tracks by city the user is from. Zone in on your sales leads.

Smart Links

The Smart Link automatically re-routes customers to your key offerings & information so it is easy for customers to go directly to what they want. Works great on all devices. You can trigger a Smart Link by QR code or hyperlink.

Record Meetings

With administrative rights you have the ability to record your meetings if you choose. An excellent feature allowing you to review and improve your messaging and delivery. Great for training sessions.

Smart Social Media

Let your customers know on social media you are open and ready to share your virtual experience. Customize your space to do everything from a virtual meeting in a boardroom, product reviews, go over a draft, start a project, and with the added ability to share it with Live Streaming.

Transcript to Meeting Notes

With administrative rights you have the ability to record your meeting and transcribe the audio into meeting notes. Security is assured as only the administrator has access to these files.

Smart Registration for Virtual Tours

A smart link allows a user to book a virtual tour & receive an auto-email with the link for your virtual tour.

Our Premium Features Details

Open House

Our real-life virtual social interaction experience is second to none. You can link your virtual space right off your website. Users can come in on their own time and view your open house and watch the videos. Or invite your guests to your virtual space and “walk” them through your customized rooms! Have a Q&A session and give them an overall better virtual experience.

Live Streaming

Engage with your customers without them downloading, sharing their webcams, or creating an account. ShareMe.chat will set up the software to start a Live Stream session and share or email a link to connect with your users instantly.

Trade Show Onboarding App

Send the onboarding app to your guest list and they simply click the link and enter your virtual space. ShareMe.chat is an excellent platform for a virtual trade show, conferences, networking events, large meetups, private parties and remote company-wide meetings.

Virtual Panel

Live Stream a panel of guests to your virtual event. Eliminate travel costs and non-productive time, regardless of their geographical location bring your guest presenters together and make your virtual conference the best experience yet.

How We Are Different

We're not an app that's going to leave you to be the tech expert. We offer personalized service to all of our clients, regardless of which package they choose. After you purchase, you'll schedule an onboarding call with one of our ShareMe.chat specialists where you can discuss the details of your Virtual Space. You can ask us questions via calls and emails, review our Library of Virtual space, and we will understand your needs throughout the planning process. We even offer guest tech support for all our packages.
